

James Nickolas

J.D. Nickolas joined the National White Collar Crime Center (NW3C) in June 2014, bringing seventeen years of experience in the private sector. Since joining NW3C, J.D. has attended and instructed over 6000 hours of high-tech related training and has earned 3 high-tech related certifications including Certified Forensic Computer Examiner (CFCE) from the International Association of Computer Investigative Specialists (IACIS), Certified Cyber Crime Examiner (3CE) from the National White Collar Crime Center (NW3C), and Certified Cyber Crime Investigator (3CI) from the National White Collar Crime Center (NW3C).

J.D. is currently a High-Tech Crime Specialist and has assisted with the development of multiple courses, articles, and presentations since 2014. His current course projects include Advertising Identifiers, Acquisition, Previewing, Automated Forensic Tools, and File Systems. When J.D. is not instructing or developing NW3C's courses, he is conducting high-tech research and providing technical assistance to law enforcement agencies.
